

Shoemakersville Borough

WINTER NEWS 2017

Winter Updates and Reminders

Snow Shoveling/Plowing and Yard Waste

Snow Shoveling

Please be mindful of the following excerpt from Ordinance 341-94: "...The owner, occupant or tenant of every property fronting upon or alongside any street or alley in the Borough of Shoemakersville is hereby required to remove or cause to be removed from all the sidewalks in front of or alongside such property all snow and ice thereon fallen or formed, within twenty-four (24) hours after the same shall have ceased to fall or to be formed, so as to leave a clear walkway at least two feet (2') wide..."

Yard Waste

Yard waste/leaf pick-up will be occurring through December. Please remember to use a biodegradable bag for the waste. Tree branches and sticks should be bundled together, with a length not to exceed 3 feet.

Snow Plowing

Plowing is just around the corner. We prefer to plow curb to curb. If possible, please move your vehicle off of the street during snow removal. This is beneficial to all, as it will create more parking and less shoveling out of cars. Please note that it is against Borough ordinance to put snow into the street. Snow should be placed either on your private property or on the curb side of the walk. During a snow emergency, vehicles must be removed from the snow emergency route, which includes the entire length of Main St., Noble Ave. from Main St. to Route 61 and Franklin St., from Church St. to Noble Ave.

Take Note

Change in Trash Pick-Up Day

Please be reminded that trash is now being picked up on Tuesdays.

Code Red System

Code Red will be used to notify residents of a snow emergency. Any residents who have not yet signed up for Code Red should contact the Borough Office at 610-562-8030 or administration@shoeyboro.org to be added into the system.

Winter Care Tips for Dog and Cat Owners

When it's cold outside, extra precautions are required to ensure your pet's well-being. Follow these tip to keep your pet warm and cozy during these chilly months.

THE OUTDOOR FACTOR

- Cats can get frostbite, and many seek warmth by crawling into car engines, which can be dangerous or fatal. Cats should be kept indoors year-round.
- Dogs also should be kept inside if possible. If kept outside, they should have a draft-free shelter large enough to stand and turn around in, yet small enough to retain body heat. Use a layer of straw or other bedding material to help insulate your pet against the cold. Different breeds of dogs have different sheltering needs. Purchase a commercially produced doghouse, or contact your local humane society for construction plans for a doghouse suitable for your climate. Please be sure to contact your veterinarian if you have questions.
- After letting your pet out to relieve herself, be sure to wipe her paws when she comes back inside. Tender pads can be injured from salts and other ice-melting chemicals. These products can be irritating to skin and mouth. Signs of ingestion include excessive drooling, vomiting, and depression.
- Outdoor animals typically need more calories in the winter. This allows their body to produce body heat. Increase the amount you feed your pet if she is allowed to go outside. Indoor-only animals may actually need fewer calories to avoid weight gain.

WATCH WHAT YOUR PET INGESTS

- Batteries contain corrosives that, if bitten or swallowed, can cause ulceration in your pet's mouth, tongue, and gastrointestinal tract.
- Antifreeze is deadly to pets. The sweet taste is irresistible to animals kept in the garage in colder months. Look for "safe" non-toxic antifreeze and make sure all spills are cleaned immediately and thoroughly. Contact your veterinarian immediately if you suspect your pet may have ingested any antifreeze!
- Winter typically is the cold and flu season. Medications as basic as aspirin can be harmful and dangerous to pets. Do not medicate your animal yourself unless under the direction of your veterinarian. Keep all prescriptions and over-the-counter drugs out of animals reach.
- Rat and mouse killers are used more frequently during the winter months. Place these products in areas that are inaccessible to your pet.
